ImportGenius Removal Guide

About ImportGenius

ImportGenius is a major trade intelligence platform that specializes in U.S. import/export data analysis. They provide detailed shipment tracking, supplier discovery, and competitive intelligence services to businesses worldwide.

Data Collection Methods

Primary Sources:

- U.S. Customs and Border Protection manifests
- Port authority records
- Shipping line databases
- International trade documentation

Intelligence Products:

- Supplier-buyer relationship mapping
- Import volume trends and analysis
- Market share calculations
- Competitive benchmarking reports

Assessment Phase

Initial Data Discovery

1. Search Your Company Profile

- Visit [importgenius.com](https://www.importgenius.com)

- Use the search function with your company name
- Try variations including:
 - Full legal name
 - Common abbreviations
 - DBA names
 - Previous company names

2. Document Exposed Information

- Screenshot all search results
- Note specific shipment records
- Identify supplier/buyer relationships
- Record volume and frequency data

3. Evaluate Business Impact

- Assess competitive sensitivity
- Identify trade secret exposure
- Calculate potential financial impact
- Document strategic vulnerabilities

Removal Request Process

Contact Information

Primary Contact:

- Email: support@importgenius.com
- Phone: +1 (310) 691-1000
- Website: importgenius.com/contact

Legal/Privacy Requests:

- Email: legal@importgenius.com
- Address: ImportGenius, 12655 W Jefferson Blvd, Los Angeles, CA 90066

Required Documentation

Company Information:

- Federal Tax ID (EIN)
- State incorporation documents
- Current business license
- Authorized representative identification

Request Specifics:

- Exact data to be removed
- Legal basis for removal
- Business justification
- Contact preferences for response

Formal Request Template

Subject: Data Privacy Request - Removal of Trade Records for [Company Name]

Dear ImportGenius Legal Team,

I hereby formally request the removal of all trade data, shipment records, and derived intelligence products for my company from your platform and databases.

Company Information:

- Legal Name: [Full company legal name]
- Federal EIN: [Tax identification number]
- State of Incorporation: [State]

- Business Address: [Complete address]

Requester Information:

- Name: [Your full name]
- Title: [Your position]
- Authority: [CEO/President/Authorized Representative]
- Contact: [Email and phone]

Request Details:

Please remove all records including but not limited to:

- Import/export shipment data
- Supplier and buyer relationship information
- Volume and frequency analysis
- Market intelligence reports
- Any cached or archived data

Legal Basis:

This request is submitted under:

- California Consumer Privacy Act (CCPA)
- Legitimate business interest in protecting trade secrets
- Right to privacy under applicable state laws
- Protection of competitive information

Business Justification:

The continued publication of our trade data creates significant competitive disadvantages and potentially violates our agreements with suppliers and customers regarding confidential business information.

Verification Requirements:

Please provide written confirmation when removal is complete, including:

- Date of removal implementation
- Scope of data removed
- Confirmation that data will not be re-collected
- Timeline for removal from cached/archived systems

I request completion of this removal within 30 days of this notice as required under applicable privacy laws.

Thank you for your prompt attention to this matter.

Sincerely,

[Your name and signature]

[Date]

Verification and Follow-Up

Post-Removal Verification

Immediate Checks:

1. Search company name on ImportGenius
2. Verify removal from all search variations
3. Check supplier/buyer relationship data
4. Confirm removal from intelligence reports

Extended Monitoring:

- Weekly searches for 30 days
- Monthly checks for 6 months
- Set up Google alerts for company + ImportGenius
- Monitor competitor intelligence reports

Follow-Up Communication

If no response within 15 days:

Subject: Urgent Follow-Up: Data Removal Request - [Company Name]

Dear ImportGenius Team,

I am following up on my data removal request submitted on [date] for [Company Name].

As required under California privacy law, I need confirmation of:

1. Receipt of my original request
2. Current status of the removal process
3. Expected completion timeline
4. Any additional information needed

Please respond within 5 business days to avoid potential regulatory escalation.

Best regards,

[Your signature]

Advanced Strategies

Legal Escalation Options

State Regulatory Complaints:

- California Attorney General's Office
- State privacy enforcement agencies
- Business licensing authorities

Federal Options:

- FTC consumer protection complaints
- Industry-specific regulatory bodies

- Trade association advocacy groups

Alternative Approaches

Negotiated Solutions:

- Partial data masking instead of full removal
- Restriction of data access levels
- Exclusion from certain intelligence products
- Ongoing monitoring agreements

Business Relationship Leverage:

- Contact through existing business relationships
- Industry association mediation
- Mutual business partner advocacy
- Professional network connections

Prevention and Ongoing Protection

Proactive Measures

Supply Chain Management:

- Include data protection clauses in shipping contracts
- Work with freight forwarders who prioritize privacy
- Use customs brokers committed to data protection
- Implement trade route diversification

Legal Protections:

- Update terms of service to address data aggregation
- Include trade secret protections in supplier agreements

- Implement competitive intelligence monitoring
- Consider trademark protection for company identifiers

Monitoring Systems

Automated Alerts:

- Google Alerts for company name + trade data platforms
- Social media monitoring for intelligence reports
- Industry publication surveillance
- Competitor intelligence tracking

Regular Audits:

- Quarterly searches of major platforms
- Annual comprehensive trade data audits
- Supplier data handling reviews
- Customer data sharing assessments

Common Obstacles and Solutions

Obstacle: "Public Records Exception"

Counter-Strategy:

- Emphasize processed intelligence vs. raw records
- Reference privacy laws that don't exempt aggregated data
- Highlight competitive harm from data compilation
- Provide evidence of business damage

Obstacle: Technical Implementation Delays

Resolution Approach:

- Request specific implementation timeline
- Ask for interim data access restrictions
- Demand regular status updates
- Consider professional removal service acceleration

Obstacle: Incomplete Removal

Verification Protocol:

- Test with multiple search variations
- Check subsidiary and affiliate data
- Verify removal from partner platforms
- Monitor for data reappearance

Success Metrics and Expectations

Typical Results

Response Rates:

- Initial acknowledgment: 80-90% within 2 weeks
- Substantive response: 60-70% within 30 days
- Full compliance: 40-60% of requests

Timeline Expectations:

- Simple removals: 15-30 days
- Complex cases: 30-90 days
- Appeals process: 60-120 days

Factors Affecting Success

Positive Factors:

- Clear legal standing
- Professional communication
- Specific data identification
- Documented business harm
- California business location

Challenging Factors:

- Public company status
- Large data volume
- Multiple data sources
- International operations
- Ongoing business relationships

When Professional Help is Needed

Consider engaging specialists when:

Legal Complexity:

- Multiple jurisdiction issues
- Unclear privacy law application
- Potential litigation risks
- Complex corporate structures

Scale Requirements:

- Multiple platform presence

- High-volume data exposure
- Time-sensitive removal needs
- Ongoing monitoring requirements

Business Criticality:

- Mission-critical competitive information
- High-value trade relationships
- Significant financial exposure
- Regulatory compliance requirements

Professional removal services typically achieve 70-85% success rates compared to 40-60% for individual requests, with significantly faster resolution times.
